- Responsible for Construction Division including Engineering, Estimating, Construction Management, Construction Operations and all support operations of this Heavy Highway Construction and Materials Production Company.
- During 15 year employment helped to build bridge construction division from simple, single span reinforced concrete box girder bridges to multi-million dollar bridge construction operations including all activities of the Company.
- Managed all plant operations including aggregate mining, aggregate crushing, base and asphalt concrete manufacturing.
- Monitored job cost performance for all projects, divisions and support operations. Responsible for financial performance of Construction Division.

FREEWAY DIVISION MANAGER –

- Responsible for all activities of the Freeway Division including Engineering, Estimating, Budgeting, Construction, Construction Management and related activities on all freeway projects.
- Designed, coordinated and facilitated the implementation of the first computerized estimating program for major Southern California General Engineering Contractor.
- Reviewed and directed all work by staff engineers as required for construction operations.
- Monitored job cost performance for all projects within the Freeway Division. Responsible for financial performance of Freeway Division.

PROJECT MANAGER –

- Coordinated and managed all phases of individual projects from beginning to end. Generally, projects ranged from \$15 million to \$25 million including grading, underground, structures, paving and other related operations.
- Over \$1 million under budget on first project, an \$18 million freeway interchange job in southwest San Diego.
- Coordinated all construction operations including scheduling, material management, labor forces, equipment, subcontractors and other related activities,
- Assisted in estimating of freeway projects including plan take-off, labor and equipment requirements,

production, solicitation of subcontract bids, material pricing and other related activities.

PROJECT ENGINEER –

- Assist Project Manager on multiple phases of individual projects including scheduling, subcontract coordination, material scheduling, contract change orders and other related activities.
- Perform engineering design of concrete formwork, bridge falsework and shoring (when necessary).

1965 - 1970

State of California, Bridge Department, San Diego, CA

**BRIDGE ENGINEERING TECHNICIAN
ENGINEERING STUDENT TRAINEE**

Construction Related Experience:

- Instructor - University of California, Berkeley - Institute of Transportation Studies - Asphalt Pavement Fundamentals - Construction Practices – Asphalt Road Show - Fall 1997 to present.
- Guest Lecturer - San Diego State University - Construction Materials and Construction Certification Curriculum.
- Instructor - San Diego Associated General Contractors of America - Supervisors Training Program (STP) - Critical Path Management.
- Coordinated and led a Joint Industry / San Diego Air Pollution Control District research project that resulted in revised rules for the District, saving Contractors and Material Producers in the District hundreds of thousands of dollars.
- Co-chaired effort to initiate first joint City of San Diego / San Diego AGC Construction Review Committee designed to resolve various construction and construction related problems and/or disputes outside the court room.
- Speaker at various Workshops/Seminars for the Asphalt Council of California concerning asphalt concrete materials, quality, testing, design, manufacturing, specifications, etc.

Professional Affiliations:

- American Public Works Association – Member – current.
- Asphalt Pavement Alliance – Environmental Team Co-Chair – 2008 – 2011, Member – 1999 – 2011.
- Asphalt Pavement Association of California – President / Executive Director and Member of Board of Directors, April 1998 – December 2011.
- Asphalt Pavement Association of California - Regional Director and Member of Board of Directors, 1994 - April 1998.
- Asphalt Council of California - Vice Chairman and Member of Board of Directors, 1988 - 1993.
- California Asphalt Pavement Association – Technical Director & Member of Board of Directors,

January 2012 – present.

- California Asphalt Paving Association - Member of Board of Directors and Board Officer, 1988 - 1993.
- Caltrans / Industry Rock Products Committee, Asphalt Task Group Industry Co-Chair, 1998 – present.
- Greenbook Committee, Voting Member, Member of Asphalt Task Group, 2000 – present.
- National Asphalt Pavement Association – Member – current.
- Northern California Asphalt Producers Association - Executive Director, February 1996 - February 1997.
- San Diego Associated General Contractors - Chairman of Asphalt Paving Committee, 1983 - 1994.
- San Diego Associated General Contractors - Member of Public Works Liaison Committee, 1980 - 1996.
- San Diego Associated General Contractors - Member of Rock Products Subcommittee of Caltrans/AGC Liaison Committee in Sacramento, 1984 - 1998.
- San Diego County Rock Producers - Vice Chairman and Member of Board of Directors, 1992 - 1994.
- State Asphalt Pavement Associations (SAPA) – Member – 1998 – 2011, Chairman – 2007 – 2008.
- State of California Performance Specification Initiative Steering Committee – Member, 1996 – 2000.
- State of California Quality Control/Quality Assurance AC Task Group Member – 1998 - 2007.

Education:

- Bachelor of Science in Civil Engineering
San Diego State University

Technical Publications

- **Production and Construction Issues for Moisture Sensitivity of Hot Mixed Asphalt Pavements**, St.Martin, J., Cooley, L.A., Haimim, H., Transportation Research Board Miscellaneous Report ESNB 0-309-09450-x, Moisture Sensitivity Asphalt Pavements, 2003.
